2. Goal: Enlist 2 members per school to belong the the ECEA Math Committee.

3. Dual Enrollment Update: Still no M.O.U.

New Items

A. Multiple Measures Update From Colleges

- a. New poster distribution plan --- Do we have a date for this?
*The accuplacer exam will no longer be used to measure placement. If students wish to challenge their placement, they will visit the department chair.

B. Goals for ECEA

- a. More High School Teachers visit college teachers classrooms to see what college math classes look like. --- The idea was to have one person per site at the provided the opportunity (day of coverage) to visit a college classroom in the spring. What is the newest progress on this?
- b. College classes offered at the High School for graduated seniors to get ahead in math -- Look into whether this is something that students would be interested in taking at the high school campus. Talk to math council - what courses would be offered, we would need to get schools on board, then pitch to the students/parents...
- c. John has made progress on a GUHSD Math website with and [ECEA Math Page](#). It should be active soon. Suggestions on content?

C. Pre-Calculus Summer Offerings by Grossmont and Cuyamaca Colleges:

- a. Plans for 2019 summer school pre-calculus offering?
- b. What adjustments should be made to better serve our students this year?
- c. Can students take an Algebra 2 equivalent at the colleges in order to get ahead?
