

# ECEA Agenda 11/1

## Items for follow up

### 1. Meeting Dates 2017-2018 :

- |                               |                  |              |
|-------------------------------|------------------|--------------|
| ● ECEA Math Committee Meeting | November 1, 2017 | 3:30 - 5:00  |
| ● ECEA Summit Meeting         | December 7, 2017 | 12:30 - 5:00 |
| ● ECEA Math Committee Meeting | March 14, 2018   | 3:30 - 5:00  |
| ● ECEA Math Committee Meeting | May 9, 2018      | 3:30 - 5:00  |

*\*Present: Nemie (Grossmont College), Sheila (VHS), Pete (WH), Tiffany (WH), Mike (MM), Tammi (Cuyamaca), Wayne (GH), David (SHS), Christy (MV)*

*\*Schools not present: ECVHS, ECHS, GHS, Helix, Steele, IDEA*

2. **Goal:** Enlist 2 members per school to belong to the ECEA Math Committee. This will ensure that every school is represented at each meeting.

*\*Reach out to Helix and Steele*

3. **Dual Enrollment Update:** Any progress on dual enrollment?

4. **Yearly Timeline of Deadlines:** Create a visual with college deadlines for high school seniors. Dates to register, dates to test, etc.

*\*Have math group meet briefly with counseling group at summit to identify what exists already in terms of deadlines for seniors.*

*[This flyer is from WH.](#) Maybe something similar?*

## New Items

1. **Incoming Math Placement Test:** Some schools are eliminating the math placement testing. Does the GCCCD see placement tests disappearing in the future?

*\*Need to throw away the articulation posters.*

*\*Starting summer 2018 all incoming assessments are changing to multiple measures.*

*\*Students answer questions then take accuplacer test.*

*\*Multiple Measures test factors in: unweighted GPA, highest math class succeeded, grade in that math class...*

*\*[Accuplacer](#) Test / [Sample questions](#)*

*\*Two placements: based on multiple measures answers, accuplacer test and the student will see whichever is higher*

*\*Anticipated above 95% of placements will be based on multiple measures answers*

2. **Goals for 2017-2018:** The Math Committee will be asked to provide new 2017-2018 goals at the ECEA Summit Meeting. Any ideas?

*\*New posters for math placement that reflects multiple measures*

*\*Information of our new Integrated Sequence so they can correctly interpret the math high school program*

*\*Future goals: do workshop at community college(s) about what the integrated class/program looks like - content and instruction*

*\*Create visual of plan for students after high school, even though sites might have a plan*

*\*Early identification of precalculus summer bridging course might enroll*
