Notes from 9.24.15

Myworkforceconnection.org - good source for LMI, CC pathways

High School and CC CTE have similar CTE goals and accountability measures. We need to understand both so we can find common ground.

Also important to understand roles in each organization.

Pathway Team would like to focus on understanding articulation process and get clarity on rules currently in place.

Then we would like to develop an effective articulation process based on strong Programs of Study and Outcomes

We would like to reach out to Articulation and Alignment Council to coordinate with their efforts.
